

## Sensory Stem Box Workshop with Megan DeRoo

Sensory stem boxes provide sensory engagement with extension activities to challenge, teach, and engage children in meaningful sensory and fun. Dr. Megan DeRoo is the founder of Brainy Day Box and she has created educational sensory boxes with STEM to challenge and create learning activity cards to benefit both children and adults.

**Date: February 16, 2022**  
**Time: 5:30 pm -7:00 pm**  
**Location: GSU B2200**

Learn how to create your own STEM sensory box!

- Get your hands dirty with play-dough, sand, and art supplies.
- Get a Brainy Day Box to take home when you participate in the full workshop.

**Audience: Future teachers and students in related fields.**

**RSVP required by February 10th to Hailey Palella**

**(Hpalella@student.govst.edu)**

**Limited to 30 participants!**

**Event is funded by COE Dean, Dr. Shannon Dermer**
